

**National Interagency Coordination Center
Incident Management Situation Report
Wednesday, September 24, 2014 – 0530 MT
National Preparedness Level 2**

National Fire Activity

Initial attack activity: Light (48 new fires)
 New large fires: 0 (*)
 Large fires contained: 1
 Uncontained large fires: ** 9
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 3
 Type 2 IMTs committed: 3

** Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

Two MAFFS C-130 air tankers and support personnel from the 146th Airlift Wing (California Air National Guard) are deployed at Channel Islands to support wildland fire suppression operations in the western U.S.

Northern California Area (PL 3)

New fires: 6
 New large fires: 0
 Uncontained large fires: 2
 Type 1 IMTs committed: 3

King, Amador-El Dorado Unit, Cal Fire. Unified command between IMT 1 (Giachino) and Cal Fire IMT 1 (Smith). Eleven miles east of Placerville, CA. Timber and grass. Active fire behavior with torching and short-range spotting. Numerous residences and energy infrastructure threatened. Evacuations, road and area closures in effect.

Happy Camp Complex, Klamath NF. IMT 1 (Opliger). One mile east of Happy Camp, CA. Timber, brush and grass. Moderate fire behavior. Area closure in effect.

Northwest Area (PL 2)

New fires: 12
 New large fires: 0
 Uncontained large fires: 6
 Type 2 IMTs committed: 3

36 Pit, Mt. Hood NF. IMT 2 (Rabe). Eight miles southeast of Estacada, OR. Timber. Road and area closures in effect. No further information received.

Onion Mountain, Rogue River-Siskiyou NF. Transfer of command from IMT 2 (Williams) back to the local unit will occur on 9/26. Fifteen miles west of Grants Pass, OR. Timber. Interior burning. Increase in acreage due to more accurate mapping.

Freezeout Ridge, Wallowa-Whitman NF. IMT 2 (Kidd). Eleven miles southwest of Riggins, ID. Timber. Moderate fire behavior. Structures threatened.

Deception Complex, Willamette NF. Two miles west of Oakridge, OR. Timber. Creeping and smoldering. Road and area closures in effect. Increase in acreage due to more accurate mapping.

South Steens Complex (2 fires). Ten miles north of Fields, OR. Juniper, brush and grass. Smoldering. Structures and sage-grouse habitat threatened.

790, Rogue River-Siskiyou NF. Thirty miles northeast of Medford, OR. Timber. No new information. Last report unless new information is received.

Predictive Services Discussion: A strong ridge of high pressure over the Four Corners region will provide hot and dry conditions to most of the western U.S. today with breezy winds over the Great Basin. An equally strong trough of low pressure off the Pacific Northwest coast will bring heavy rain showers and thunderstorms from northern California through eastern Washington. Flash flooding is possible over burn scars from wildfires in steep terrain of the Pacific Northwest and northern California. Storms are also expected to stretch from the northern Great Lakes through the southern Plains ahead of an upper level disturbance. Much of the eastern U.S. will remain seasonably cool and dry.

THUNDERSTORM SAFETY

Weather / Fire Behavior Category

Thunderstorms cause significant hazards for wildland firefighters, including downbursts that can cause extreme fire behavior and lightning. When thunderstorm development is likely, lookouts should be posted and aware of signs of a developing storm. A sudden reversal in wind direction, a noticeable rise in wind speed, and a sharp drop in temperature may note the mature stage of a storm. Heavy rain, hail and lightning occur only in the mature stage of a thunderstorm. During a storm, use the following guidelines:

- Do not lie down.
 - The best position is sitting on the pack or crouching with feet close together.
 - Avoid sitting directly on the ground, if possible; but, if necessary, keep feet and butt close together.
 - Avoid grouping together. Keep a minimum of 15 feet between people when possible.
 - Removing caulk boots will not provide safety if stocking covered or bare feet are then in contact with the ground--don't bother!
- "Stay out of dry creek beds" is correct for flash floods, but has nothing to do with lightning.
- Handheld radios (with short rubber antennas) or cell phones are safe to use. Communication is vital to crew safety. Do not use land line radios or radios with elevated antennas.
- Wide, open spaces are better than trees or clumps of trees in the vicinity. Ridgetops, etc., should be avoided.
- If you feel the hair on your arms or head "stand up," there is a high probability of a strike in the vicinity. Crouch or sit on a pack.
- Put down all tools.
- Take shelter in vehicles if possible.
